PROFESSIONAL SUMMARY

Senior Software Engineer with **3+ years** of experience building scalable web applications using **React.js** and **Next.js**, focusing on **reusable** UI components, performance **optimization**, and REST API **development & integration**.

EXPERIENCE

Naukri.com (InfoEdge)

Senior Software Engineer

Nov 2025 - Present

Noida, Uttar Pradesh

- Developed and deployed **8+ backend-driven UI widgets** using React.js and Next.js (SSR), supporting A/B testing and improving user engagement across key journeys.
- Drove **A/B experiments** across Dashboard, Profile, and Interview pages (animations, popups), with Dashboard widget increasing uptake by **21%** and contributing to **revenue uplift**.
- Designed and implemented **CV Parser** based Resume Builder flows handling 8+ user scenarios, including **AI-powered resume generation** for Pro users, improving personalization and user experience.
- Engineered **streak system** in Post-Purchase flow, boosting daily user retention and repeat visits.
- Improved **SEO** of Resume Maker pages by adding semantic tags and structured data (FAQ schema), enhancing search visibility and crawlability.
- Resolved **20+ critical bugs** across NEO+ (Desktop feature) and core platform, strengthening production stability.

Veersa Technologies

Senior Software Engineer

Feb 2023 - Oct 2025

Noida, Uttar Pradesh

- Modernized** a legacy WinForms desktop application (**HealthEdge**) into a scalable React-based web platform, boosting performance by 25% and enhancing user experience.
- Enabled **cross-tab synchronization** of claim data using the BroadcastChannel API, ensuring real-time consistency across 5 modules.
- Developed a **centralized error handling** mechanism with Retry, Continue, and Quit options to improve application resilience and user experience.
- Implemented **user observability tracking** using event-driven instrumentation to capture cross-module user behavior, enabling centralized monitoring with low performance overhead.
- Built **16 real-time** Kibana dashboards (**67 panels**) integrated with Elasticsearch for user analytics and monitoring.
- Automated** Kibana dashboard migration with a **Java-based CLI tool**, reducing migration time from **2 weeks to 5 minutes** with 95%+ accuracy and ensuring repeatable deployments.
- Integrated **Stripe** payment system supporting **transactional, subscription, and credit-based models** across Node.js and React application.
- Presented **product demos** to stakeholders and the steering committee, effectively communicating project progress and feature enhancements.

EDUCATION

Deenbandhu Chhotu Ram University of Science and Technology

Bachelor of Technology in Electronics and Communication Engineering; Murthal, Haryana

Jun 2019 - Jul 2023

CGPA: 8.80

SKILLS

Programming: Java, JavaScript, TypeScript, Object-Oriented Programming, Data Structures & Algorithms (DSA)

Development: React.js, Next.js, Redux, Saga, Zustand, HTML, CSS, Responsive Design, Performance Optimization

Backend, Databases & Tools: REST APIs, WebSockets, Elasticsearch, Kibana, SQL

Miscellaneous: Postman, BitBucket, JIRA, Git/GitLab, CI/CD(Jenkins)

Handles: Code360 - [abhujaja](#) Leetcode - [abhujaja](#) HackerRank - [ankit2000](#)

PROJECTS

Technova | *ReactJS, JavaScript, Zustand, Firebase, GoDaddy, Git/GitHub*

- Led** frontend development for a responsive technical fest website accessed by **1300+** users.
- Integrated **Firebase authentication** (email verification, password reset), reducing user support queries by 50%.
- Deployed** application with custom domain, ensuring 99.9% uptime during the 2 weeks event.

ACHIEVEMENTS

- Rising Star of Q4 2023 and Achiever of the Month (Jan 2025)** - Veersa Technologies
- Achieved **Knight (1950+ rating)** on LeetCode
